Accessibility Plan

September 2022

This plan should be read with the following policies:

- Special Educational Needs and Disability Policy 2022
- SEND Code of Practice (June 2014)
- Equality Act 2010

Agreed by: Governing Body

Previous review date(s): May 2010, May 2013, October 2013, October 2015,

Review date: September 2023

Introduction

The Equality Act 2010 has simplified and strengthened discrimination law. Under the new legislation the Governing Body continues to have responsibility for accessibility planning for disabled pupils.

This plan sets out the proposals of the Governing Body of the school to increase access to education for disabled pupils in the three areas required by the planning duties in the Equality Act:

1. Increasing the extent to which disabled pupils can participate in the school curriculum;
2. Improving the environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services;
3. Improving the delivery to disabled pupils of information which is provided in writing for pupils who are not disabled.

It is a requirement that the school's accessibility plan is resourced, implemented, reviewed and revised as necessary and reported on annually. This plan will be reviewed in consultation with:

- SENCO
- governors
- external partners

Our school mission statement reflects our intent to ensure equality for all.

The agreed definition of disability, supported by the Disability Rights Commission, is:

'A person has a disability if they have a physical or mental impairment which has a substantial and long term adverse effect on their ability to carry out day to day activities. It covers physical or mental impairments, which includes sensory impairments such as those affecting sight or hearing. The term mental impairment is intended to cover a wide range of impairments relating to mental function, including what are often known as learning disabilities.'

Planning Duty 1:

Increasing the extent to which disabled pupils can participate in the school curriculum.

We will continue to:

- Provide INSET/staff training to ensure all pupils within each lesson are able to access the content through appropriate differentiation and access strategies.
- Audit resources within each curriculum area to support staff in delivering high quality, lessons to meet the needs of all pupils.
- Work closely with the SENCO to monitor provision for pupils with additional needs.
- Develop close working relationships between support staff and class teachers to ensure that support is fully utilised.
- Ensure equal access for pupils with additional needs to access clubs, school visits and extra-curricular activities with considerations made for pupils when planning trips and completing risk assessments.
- Ensure pupils feel fully supported and included within the school through close links with parents and external agencies.

In our school we have a range of pupils who, with support, can access mainstream education. The needs of the pupils range from those who have moderate learning difficulties (MLD) to children who have physical difficulties. We use a range of resources in order to enable all children to access a broad and balanced curriculum including:

- A differentiated curriculum
- A range of support staff
- Interactive ICT equipment
- Specific equipment sourced from occupational therapy or other agencies
- Liaison with outside agencies
- Liaison with parents.

We work closely with external agencies to support children with a range of needs including: hearing impairment, visual impairment, speech and language difficulties. Some external agencies include; occupational therapists, educational psychologist and school nurse.

On entry to school all parents complete a medical form highlighting any medical needs and physical limitations. When appointing staff, disabled applicants are automatically given an interview, if they fulfil the person specification. If successful, where possible, the school accommodates the needs of pupils and staff by putting in place risk assessments, Health Care Plans and PEPs when required. This includes addressing needs such as allergies, severe asthma, diabetes, haemophilia and other medical conditions.

Regular parents meetings are held throughout the year at which time any needs regarding disability can be discussed. All parents know they are welcome to come into school at any time to discuss any changes or needs that arise regarding their child or themselves.

All parents have entrance to the school on the ground floor which is accessed by a slope.

Planning Duty 2:

Improving the physical environment of the school to increase the extent to which disabled pupils can take advantage of education and associated services:

As a school, we have adapted our Victorian building in a number of ways:

- Lowered the ceilings and carpeted the classrooms to reduce noise levels and to improve the acoustics for all children. All corridors are carpeted.
- Entrances to school all have lowered handrails, with the main entrance having two levels of handrail. In the KS1 toilets, one toilet has been fitted with a handrail.
- The lighting around school has been updated to improve the quality of light.
- A ground-floor classroom has been developed for Reception pupils, which includes a disabled toilet
- The fire alarms have been improved to ensure they can be heard clearly in all areas of school.

Sunning Hill School is a Victorian building and as such presents a number of difficulties for physical access. The school is on three floors with additional mezzanine levels and the site slopes making the front elevation higher than the rear. The ground floor is accessible in parts but there are steps down to the main dining hall. There is a disabled toilet in one of the ground floor classrooms. The school has considered adding a lift but this would impact on corridor areas and fire escapes. An external lift has also been considered but this would only provide access to certain levels.

Planning Duty 3

Improving the delivery of information to disabled pupils (and parents)

We will continue to

- Provide written materials in alternative formats as requested
- Provide School policies in other formats as required.

- Use the loop system installed to support children with hearing impairments.
